The association « Les rendez-vous de la Chapelle » was created In the spring of 2015 to oversee the restoration, enhancement and protection of the chapel of Our Lady of the Temple in rue St. Michel, Le Dorat, by hosting art exhibitions, concerts and other cultural events.

Over time, the original layout of the building has changed and since buying the chapel in December 2014, the new owners have undertaken the first phase of works. These consisted of removing the false ceiling and two partitions, one between the choir and the nave and the second separating the nave and the entrance. The marks of these structural changes are still visible today, and you can get an idea of the original size of the Chapel as it would have been in 1898. Several religious items have been preserved, such as the pulpit, the communion table, and a part of the main altar.

The owners wanted to bring life back to the place and decided to create the association « Les rendez-vous de la Chapelle » so that they could welcome artists, host exhibitions, and hold other cultural events during the year from spring through to autumn.
